10/10 would lift again. funny arcade game. Truck drives really well, the theory is actually great it just needs more content.

10/10 Best gifted game in my library. Awsome forklifting experince heaps better than our crappy fork we have at work. Just keeps on going no need to charge after just one pallet will even go up ramps without a push. If your work place has a crappy fork and you want to try out a better one then this is the game for you. Even Craigo would love to try a fork like this and might even smile about it. If your too old to get a fork job and have a licence like old Brucey boy play this and get the ilusion that you got a real job just without pay.. 10/10 More realistic then i first thought. Note its free in the app store but worth the \$2 you pay for it here. Literally the dumbest game ever

There are any number of things in my day that I will spend a dollar on. Of those various things today, this is the one which has given me the most enjoyment. I kind of feel bad for getting it for half off. I actually came back to the store page to buy a copy for a friend, but I guess the sale had ended, so I figured I would write a review instead.

This is a fun little casual game. I really can't think of anything negative to say about it. It's funny, entertaining, and for achievement hunters, it's a fun, easy list. The physics, graphics, and controls are all really excellent for the level of game this is, and it will run great even on a toaster. Since you are interested in the concept of this game enough to be reading reviews of it, you should buy it. It's well worth the price.. this game is very funny. Very fun and solid game for its price. The camera here is much more convenient and in every aspect is better than in GTA V.. I did not like this game. It's not challenging at all and it's boring. I didn't expect much from it initially but I thought it'd be a fun time waster but I can't even call it that.. OMG! Why do i like this game sooooo much? Think i want to change my job now. If you buy one indie game this year buy this.

@devs Multiplayer?. It Is very fun and challenging and had lots of things to do like the standard mode, the time trial and the race track great game if you don't have alot of money and want to play a fun game.. If you're looking for a game about forklifting, look no further. After spending a whopping 18 minutes on the game I can say that this is the best forklifting expierence I've ever had, from lifting pallets to dropping them this game covers it all. Real talk tho its 2 bucks and you can refund, so for a couple laughs i'd say worth.. Fun to play - all achievements in about 3 hrs.

Sometimes the collision is a bit glitchy but overall pretty playable! :D

Recommend! :D. Nice game but hard controls
7/10. More fun than No Man's Sky
